
VICE PRESIDENT JEVAN LIGHT

For
ELSA Society

I would like to run for Vice President of ELSA for two key reasons.

Firstly, I am interested in **furthering the career ambitions** of our members in the variety of legal fields that exists. Coming from a non-traditional background myself, I will use my passion for social mobility to help student's career opportunities. This ambition would be best served in a **leadership capacity** by being the Vice President. I plan to do this by maintaining the commercial awareness newsletter, running **application advice drop in sessions** and creating **more networking opportunities**.

Secondly, I believe that I have the necessary skills and capabilities to be a successful Vice President. For example being the Campus Ambassador for Norton Rose Fulbright and being on the inaugural Goldman Sachs Legal Insight Scheme, I will be able to use **my connections with law firms to provide opportunities** for our members. Additionally, during my role as Publicity Officer **I created the commercial awareness newsletter idea**. Over the past year, this has involved writing articles on smart contracts to avoiding the economic damage of Covid-19. I hope that in my role as Vice-President to **forge connections with the other societies** and members to collaborate on new commercial awareness articles. Furthermore, **I created the website** for the society which features our events and general information about the society that successfully increased our membership for the previous year.

Additionally, having **previously helped with the last Jazz & Prosecco ball**, I believe I have the necessary skills to take the lead and make our ball an **even bigger success**.
