

# WAI LING WAN FOR LAW OUTSIDE OF LONDON OFFICER

## ABOUT ME

I am a first-year law student at Van Mildert College, and I would love to be your next Law Outside of London Officer!

I have enjoyed attending ELSA events due to the unique focus on promoting different legal careers outside of the well-known London-based firms. I believe it's important for students interested in a legal career to be educated on all the options they have, so they can make informed decision on their future.

I am running for this role to be more involved in the society that I appreciate and to continue the success of the popular Law Outside of London Event.

## WHY ME?

- I have **experience in event planning**. As a member of Durham University Student Halo Project, I organise and contact speakers for events such as discussion panels. My experience of this will ensure efficient planning of both stages of the event.
- My **excellent communication skills** which will enable me to effectively liaise with law firms are demonstrated by experience of being a mentor for Project Access. I can **manage time effectively** as I plan ahead to schedule online calls with my mentees.
- I'm a **team player** which makes me a suitable candidate for the exec. I was an Associate Mentor for the National Citizen Service which involved **leading** and **supporting** a group of teenagers in their social action project.

## PLANS

- A termly email newsletter including an overview of the legal opportunities outside of London
- Continue the success of the Law Outside of London Event
